

## GAL20 - Creating a donor record

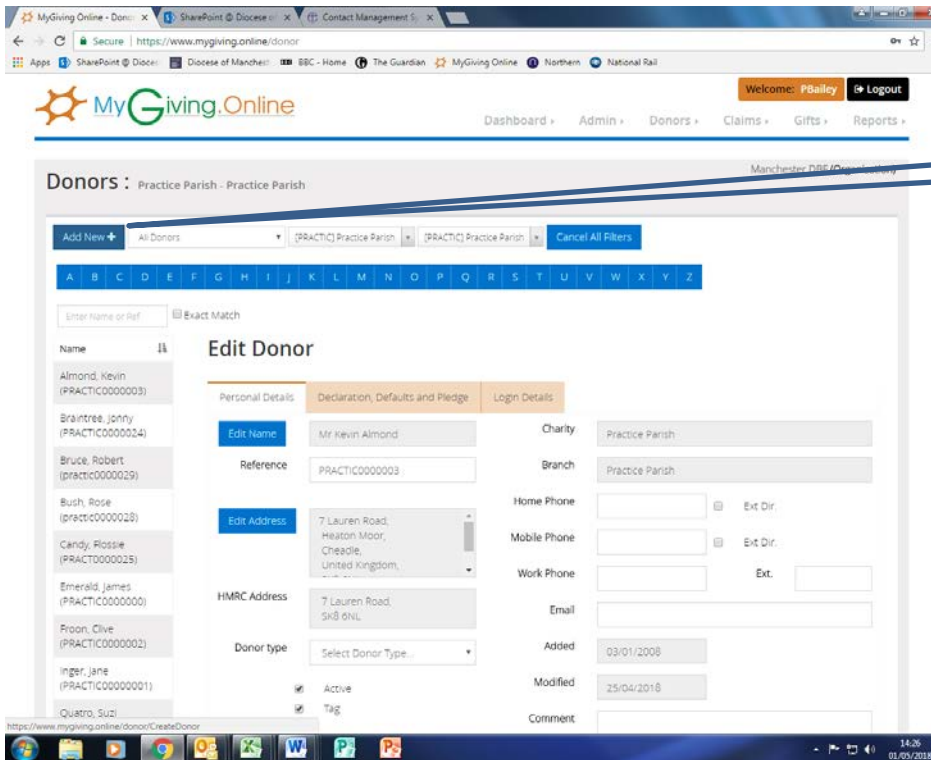

This guide shows you how to create a new donor record onto the system. Please ensure you follow all of the steps outlined in this step by step guide otherwise it will create errors you will need to rectify before authorising your quarterly claim.

- Step 1

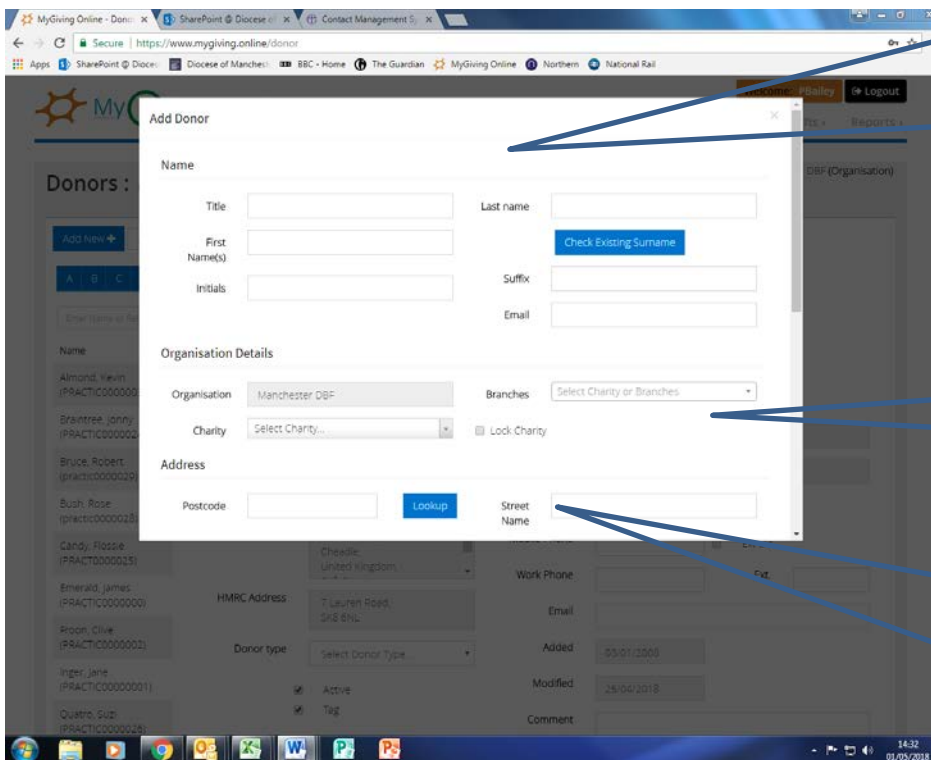

Click on Donors and View and edit donors.

- Step 2

Click on Add New.

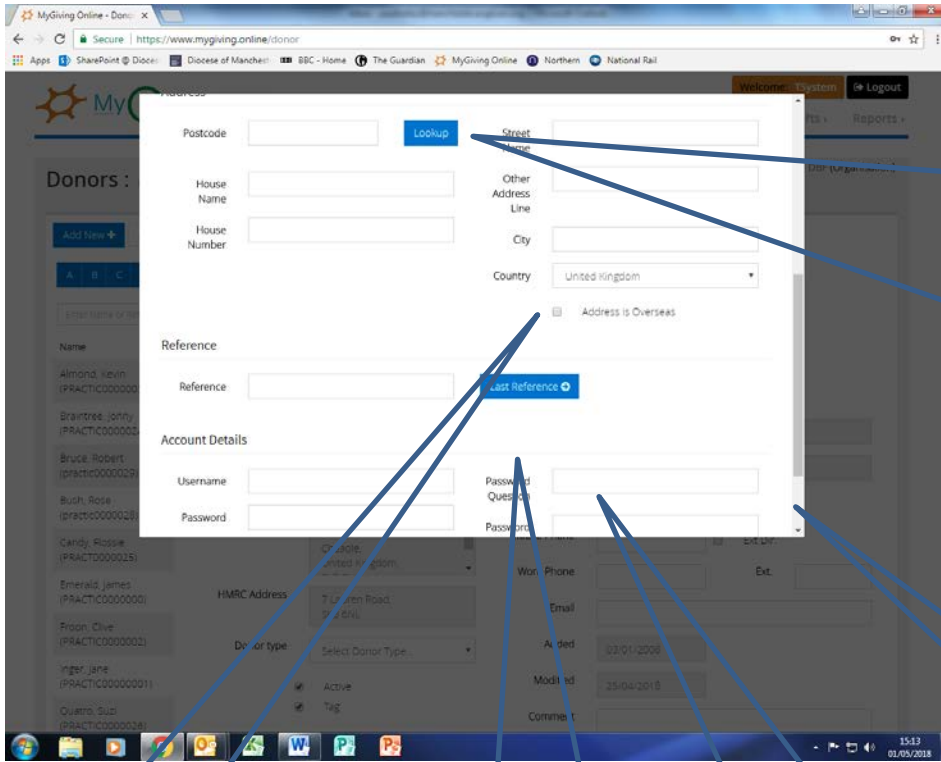

- Step 3

Type in your donor's title, first name, and last name. If appropriate you can also add a suffix (e.g. MBE) and an email address.

If required, choose the charity and branch.

You'll need to scroll down to complete the rest of the details. Instructions are on the next screenshot.

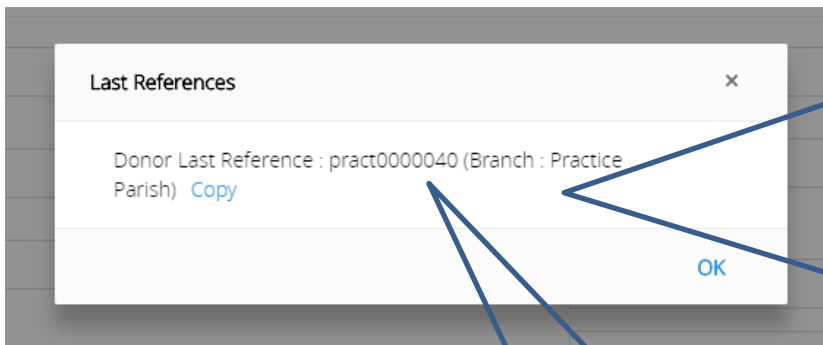

If you know the post code, type it in and click on Lookup. A drop down box will appear, click on it and select the correct address. This will auto populate the address fields. You can type in the address if you'd prefer.

If the address is overseas, please tick the box.

Click on Last Reference and it will provide the last number used. Follow the instructions as shown below.

If you wish to allow your donors to access their own details using the 'Donor App', please complete the account details section.

Finally, scroll down a little further and click on Save.

It shows the last reference numbers you have used for a donor record. You can write the reference number down and type it in or click Copy, then OK. You'll be returned to the previous screen, click in the Reference box, right click and past the number into it. Don't forget to add the next sequential number (e.g. 41).

**Please do not change the reference number format.** The first part of the reference contains your unique Parish code and a sequential number for each donor.
