

Manchester Diocese Board of Education Academy Strategy

Introduction

The Diocesan Board of Education (DBE) recognises and supports the Department for Education's (DfE) aspiration and vision for every school to be part of a family of schools in strong academy trusts. This vision is to be found in the Government's White paper, 'Opportunity for all: strong schools with great teachers for your child' (2022) and the Memorandum of Understanding (MoU) which was agreed between the National Society and the Department for Education (DfE) in 2016. The DBE has also considered its' statutory role in line with the legislative framework outlined in the DBE Measure 2021.

Through its academy strategy the DBE's intent is to continue to support a cohesive family of schools working in a covenant relationship with the DBE to transform the lives of children and young people across the Diocese of Manchester.

The vision of the Diocese of Manchester is to be a worshipping, growing and transforming Christian presence at the heart of every community. The desire is to be a church for a different world.

Church schools are places where Christian vision, values and practices are at the centre of all that happens there. Christian worship takes place, children and adults are encouraged and given opportunities to grow in their chosen faith and by supporting members of local communities, lives are transformed. It is the role of the DBE to work in partnership with schools and churches to enact the vision and support the principles of growing, nurturing and serving.

Growing: We want to grow in relationship with each other across the family of church schools. As we share expertise, experience and encourage one another across church and school we strengthen each other. The desire is for

relationships that are mutually reciprocal for both schools and churches, with both giving and receiving for the benefit of all concerned. We can all delight in such partnerships.

Nurturing: We believe, as Christians that God nurtures His relationships with His children. The most effective nurturing takes place when schools and churches are seen to be working together alongside one another and with each child or young person, from early years through to sixth form; walking with them during transition points, through academic experiences and community events. As school leaders, staff, governors and clergy teams are united they are able to lift up the children and young people we all serve.

Serving: All of us involved in and with schools and churches seek to serve with love, kindness and action, enacting the commandment to 'Love the Lord your God with all your heart and with all your soul and with all your mind, and love your neighbour as yourself.' (Luke 10:27). We work in communion with people, children and families from all faiths and backgrounds, celebrating the diverse landscape of this great city and region and the communities that come together within it.

MDBE's overarching aim is for Church of England schools to be places where all involved can be introduced and supported to reflect on Jesus' promise in John 10:10 that He 'came so that you might have life in all its fullness.' The DBE believes that this can be best achieved where our schools are working with each other in effective collaborations and formal partnerships, creating school communities that are loving in relationships, ambitious in aspirations and bold in actions.

In light of the DfE's vision and policy for academisation as well as the establishing of strong Multi-Academy Trusts (MATs), MDBE has reviewed and reflected on the current status of its schools and academies and its approach to academy conversion.

Church schools that wish to convert to academy status must have the approval of the DBE and an approval process has been developed by the DBE to support this. The DBE and the Regional Director's (previously Regional Schools Commissioner) expectation is that the governing body of any maintained Church of England school wishing to academise and become part of a CE MAT will approach the DBE as early as possible to discuss their options for conversion and agree the process for securing the consent of the DBE. Schools with historical/associated foundation trust involvement, such as the Henshaw Trust, must also gain trust approval to convert to an academy.

MDBE will hold a termly Academy Committee for schools seeking Board's permission to convert and become part of a CE MAT. Such committees will directly follow Board of Education meetings. Extra meetings will be arranged as necessary in order to support schools wishing to convert as we would not wish this to cause any delay with conversion.

MDBE has considered its' strategy for academisation through analysis of the context across Manchester Diocese. Manchester Diocese has 192 CE schools working within 12 Local Authority areas. There are approximately 58,000 pupils in CE schools across MDBE. Several CE MATS contain previously VA, VC and community schools.

Several MATs work across a range of Local Authority areas, both within and outside of MDBE. To date there are 12 CE Multi Academy Trusts with church majority articles as well as one CE Multi Academy Trust with church minority articles (VC model) that are recommended by MDBE.(See appendix 1 for full list) There remain two CE Single Academy Trusts in existence within the diocese. It is MDBE's considered view that there is capacity within the current MAT system across MDBE for growth, enabling all CE schools to join an already established CE MAT.

Strategy

MDBE academy strategy provides a framework for schools to consider options regarding academisation and to work within. It does not prescribe any individual

MAT. The choice of which specific MAT a school may prefer to join is for governors and school leaders to make following a process of due diligence. In such cases where an academy order has been established, MDBE will continue to work with the Regional Director, the school and MATs in order to agree the preferred and most appropriate option in order to support and move the school forward.

MDBE recognise the importance of local links, especially those between CE schools, churches and Mission Communities. Reciprocal relationships are to continue to be encouraged, further developed and sustained both on a day to day basis, as well as through MAT and school governance structures. Churches and schools remain integral to the mission of Manchester diocese working closely together to ensure effective local Christian communities. This strategy recognises the importance of partnerships and reflects governance as set out within the MoU (2016). In short when selecting a MAT, it is important that the governance structure (VA/VC) reflects the current school status as in there must be CE representation.

Strong relationships between MAT CEOs, the Board of Education and its officers remain a priority. Such relationships will continue to be nurtured and developed in order to actively support and sustain the Christian distinctiveness of all CE MATs and individual schools. MDBE continues to be represented at member level within all CE MATS working across the diocese. The make-up of trustees/and Local Governing Boards must continue to reflect the Church majority or minority Articles of Association agreed when the MAT was established.

Schools

- Any CE school wishing to convert must join a CE MAT already operating within the Diocese of Manchester, from the list recommended by MDBE. (See Appendix 1)
- MDBE's Academy policy continues to be applied in all cases of requests for conversion. It maintains that all CE schools across the diocese join either

a CE majority or CE minority Multi Academy Trust, depending on their current VA/VC status. (See Appendix 2)

- MDBE will continue to work with the Regional Director supporting their vision for the EIAs and Priority Areas. Schools within Education Investment Areas (EIAs) will be encouraged to seriously consider academy options. Within MDBE these are: Bolton, Bury, Oldham, Manchester, Rochdale, Salford and Tameside.
- Schools currently graded as Requires Improvement, as well as CE Single Academy Trusts, will also be encouraged to seriously consider academy options and look to join an established CE MAT within MDBE.
- In line with the MoU, schools requiring sponsorship will be sponsored by a MAT with appropriate Church of England governance. Issues relating to current capacity will be at the forefront of such decisions. The DDE will work with the Regional School Commissioner (RSC) to determine the most appropriate solution to best meet the needs of the school and its community.
- MDBE encourages those schools with 'Good' and 'Outstanding' judgements to join established CE MATs. Such schools have much to offer CE MATs in terms of expertise, wisdom and knowledge. Such a move not only builds MAT capacity to support schools within or wishing to join the MAT but also strengthens MAT growth, capacity to improve and further develop. It also gives schools the opportunity to impact on others as well as contributing to retention of staff who otherwise may seek promotion elsewhere.
- Groups of schools wishing to convert together and establish a geographical/local hub model within a MAT will be encouraged and such an approach is fully supported by MDBE.

Multi Academy Trusts

- MATs will be encouraged and supported to work across several local authority areas within the Diocese of Manchester in order to support the family of CE schools. It is expected MATs will look favourably on all CE schools wishing to join them as a reflection of the vision of 'flourishing for all' as well as demonstrating servant leadership for our Diocesan family.

- MDBE recognises the strong working relationships that have existed for many years between CE and community schools. Several CE MATs within MDBE already contain a mixture of CE and community schools. MDBE expects MATs to continue to welcome community schools into CE majority and minority MAT partnerships.
- MDBE will work with MATs to ensure their growth strategies support the needs of all CE schools across MDBE and understand the needs of the Diocese.
- MDBE will continue to support schools and MATs to understand the role of members, trustees/directors and the Local Governing Board. Training will be offered bi-annually for diocesan members and trustees as well as bespoke training for all members, trustees and LGBs, as appropriate, delivered on request from MATs.
- MDBE will encourage MATs with two or fewer than two schools currently, to consider transferring into a larger CE MAT to further develop strength and capacity.

To support schools through the journey to academisation MDBE has produced and makes the following guidance documents available to schools:

1. MDBE Academy Policy
2. MDBE Academy Strategy
3. Academies Frequently Asked Questions (FAQ) 2022
4. Guide for Governing Bodies when considering Academy Conversion
5. Guidance on presenting to BOE Academy Committee

Conclusion

The Chair of the BOE and Director of Education will host a series of Academy Roadshows throughout January - February 2023. Such meetings will provide a forum for thoughtful conversations to take place as all continue to work effectively together to best support the needs of children, schools and their communities across MDBE.

MDBE recognises the changing landscape of education nationally. To that end the Diocesan Director of Education continues to work in partnership with the CE Education Office, ensuring up to date education policy, direction and strategy is reflected locally. As well as this the needs of MDBE schools are shared within the national community of Diocesan Directors of Education. Upcoming discussions during 2023 involve devising a set of principles for what constitutes a strong CE MAT.

This strategy will be reviewed and updated annually as appropriate.

Appendix 1 Church of England Multi Academy Trusts

Archbishop Temple CE MAT

Christchurch (To become The Sycamore CE MAT)

Cranmer Education Trust

Crompton House CE MAT

Forward as One CE MAT

Leverhulme CE MAT

Roche Valley CE MAT

St Bede's CE Primary MAT

St James and Emmanuel CE MAT

The Bishop Fraser Trust CE MAT

The Wings CE MAT

Watergrove CE/community MAT
