Diocese of Manchester

CHURCH
FOR A
DIFFERENT
WORLD

Many churches find that this section of the Eco Church survey is the most challenging, so here are some resources to support your church members as they seek to reduce their carbon footprint.

The [resources page of the Eco Church section of A Rocha UK website](#) offers resources for a simple lifestyle audit and suggestions for reducing the carbon footprint of food, energy use, and travel.

The [Creation Care scheme](#) aims to encourage households to make changes to care for God's earth, providing ideas for next steps, and recognising progress that's made.

[Climate Stewards](#) encourages you to calculate your carbon footprint, reduce it if you can, and offset the rest. Offsetting means compensating for every tonne of CO₂ you emit by supporting community forestry, water filter, solar and cookstove projects in the developing world. You can access the carbon calculator to measure the impact of personal travel, energy use, food and expenditure on services and products.
