Mobile phone App
Enable donors to donate directly from the app, update their details and receive up to date statements for their tax returns.

Donations via QR codes
QR codes are simple, easy and free to create. They can be added to leaflets, posters, newsletters and will enable to donors to make donations easily.

Claiming for multiple organisation
If you are an authorised person or an agent for a number of different organisations these can all be managed by MyGiving.online and claimed centrally or individually if required.

Thank you for your donation
We believe it is important to thank your donors for their donations. Therefore MyGiving enables 'Thank you' letters to be sent easily by email or post.

Share the work, securely
Create as many users as you wish, deciding what access rights each person is given and what they can and can't do.
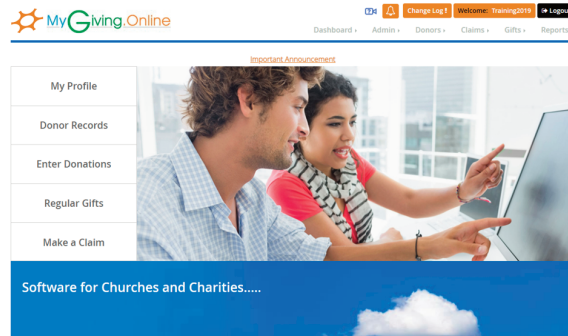

If the HMRC come knocking
MyGiving contains the reports and clear audit trails to show each donation from being entered to being processed and claimed, with claim history.

PC's no longer required
Work from a PC computer, an Apple Mac, iPad, Android tablet or virtually any browser enabled device.

MyFundAccounting.Online

Flexible, Simple, Compliant.

Our online version of Finance Co-ordinator - **MyFundAccounting.Online** - carries the same DNA as Finance Co-ordinator but is updated to offer more flexibility and simplicity, whilst still retaining the same compliance with Charity Commission and OSCR requirements that makes Finance Co-ordinator so popular.

FREE
30 day trial available. No credit card details required

MyFundAccounting.Online is designed to manage the accounts for churches and charities and enable compliant reports to be produced.

It manages funds with ease and includes a selection of pre-designed account structures for various different denominations and organisations, making setting up the accounts a breeze.

Both Receipts & Payments and Pre-payment & Accruals accounts can be produced and a large number of reports are available including Balance sheet, SOFA, fund reports, budget reports, analysis reporting.

Features include:

Fund accounting done properly
MyFundAccounting.Online has been designed from the ground up for fund accounting, rather than a modified company accounts systems, thus enabling funds to be handled properly.

Unlimited Funds and Nominal codes
Create as many funds and nominal accounts including income, expenditure, current assets etc. as you need.

Do Debits and Credits sound frightening
MyFundAccounting deals with these behind the scenes, you don't need to worry about them, or even see them. Transaction assistants will guide you through any unusual transactions.

Create memorised transactions
If you keep entering the same transaction, but infrequently, why not use our memorised or template transaction options, easy to use and a real time saver.

Save time – import bank statements
Instead of having to type in transactions you can import them directly from your bank statement to the correct nominal codes and funds.

Save time – import donations
If you use our MyGiving.Online software for your donations and Gift Aid needs you can automatically import from it – saving time and work.

Mobile phone App
Coming shortly will be a new mobile app on iOS and Android to enable you to make transactions and see key information from your phone.

Robust audit system
This robust audit system is key to any accounting system. All transactions have a unique audit number and all changes are logged.

Standard and Fund reporting
Designed to properly handle funds MyFundAccounting produces the standard and fund accounting reports you needs at the click of a button.

www.datadevelopments.co.uk   **01902 714030**.

Budgets and Budget reports

Budgets are important for monitoring and analysis purposes. You can create a variety of different budgets and reports including budget, actual and variance reports.

Work on multiple organisations

If you need to work on multiple organisations or churches they can all be kept under one umbrella and you simply switch between them – no need to transfer backups.

Easy consolidation of accounts

Each church or branch is kept completely independently of another, but if you need to consolidate them for reports or accounts this can be done with the click of a button.

Share the work, securely

Create as many users as you wish, deciding what access rights each person is given and what they can and can't do. You can even give access to your Independent Examiner or auditor.

Read-only access

If you want your trustees to have visibility of the accounts but not be able to change anything you can give them read-only access.

Freedom to work from anywhere

Work from the office, home, the highest mountain, the lowest valley in fact anywhere where there is an internet signal.

PC's no longer required

Work from a PC computer, an Apple Mac, iPad, Android tablet or virtually any browser enabled device.

Help when it is needed

You will always be covered by our technical support, so if needed give us a call, drop us an email or watch the videos embedded into the software.

Upgrading from Finance Co-ordinator

It couldn't be easier to upgrade, simply make a backup of your data and upload it. We will email you when it's ready to go and that's it!

- No complete credit/debit card or bank details are stored at any point.
- Our servers are all PCI DSS compliant.

Re-imagine the way you receive donations

Winston Churchill *said that "We make a living by what we get, but we make a life by what we give". In recent years how donors choose to donate has changed radically. Cash donations are falling dramatically as other forms of giving such as contactless or credit card have become more popular.*

MyGiving.Online enables new and existing donation methods to be set up and managed with ease, and claims and be submitted to the HMRC directly, at the click of a button.

Features include:

Claim Gift Aid easily

At the click of a button MyGiving.Online connects directly to the HMRC and submits your Gift Aid claims automatically. No need to login and upload your claims.

Enter and claim GASDS donations with ease

You can record all of your GASDS eligible donations even if they are more than the current £8,000 limit. This improves your reports and MyGiving.Online will ensure you don't over claim.

We want you to succeed

You can enter as many donors and donations as you wish for no extra cost, we want to encourage you to grow not penalise you for growth with extra costs.

Accept donations 24/7

Donors not only give when they are in church or at the charity, but often at all times of the day or night. Our Donate Now button enables donations at any time of the day.

Contactless donations and Gift Aid

Contactless donations can be recorded as GASDS eligible but with the certain contactless terminals we can import the donations and enable Gift aid to be claimed instead.

Regular donations without the paperwork

Enable donors to setup regular donations by Direct Debit with our online forms. No paperwork to complete and the donor set it up in minutes online.

Automatic increase of regular donations

With our regular Direct Debit system donors can choose how much they wish to donate, on what date and even to increase the donations each year. MyGiving takes care of it all.

Let MyGiving enter the donations for you

With our Donate Now buttons any donations received are automatically recorded for you, no work for you to do. You will simply receive a notification with the donation details.

Save time – Import bank statements

Instead of having to type in donations you can import them directly from your bank statement, or Excel file, to the correct donor record.
