

**Monday 7th April**

## **A Prayer for World Health Day**

**Loving God, as we gather on this World Health Day, we lift our voices in prayer, acknowledging the precious gift of health and the urgent need for equitable access to healthcare for all.**

### **For the Sick and Suffering:**

We pray for those who are suffering from illness, injury, or disability, that they may find comfort, healing, and hope. May they be surrounded by compassion and receive the care they need.

### **For Healthcare Workers:**

We thank you for the tireless work of healthcare professionals, doctors, nurses, and all those who dedicate their lives to healing and caring for others. Grant them strength, wisdom, and resilience in their challenging roles.

### **For Equitable Access:**

We pray for a world where healthcare is a right, not a privilege, and where everyone, regardless of their background or location, can access quality care.

We ask for the removal of barriers that prevent people from accessing essential services.

### **For Prevention and Research:**

We pray for advancements in medical research and public health initiatives that can prevent disease, promote wellness, and improve the lives of people around the world.

### **For Hope and Healing:**

We ask for your healing touch to be felt in every corner of the world, and for a spirit of hope to flourish in the face of adversity. May we be instruments of healing and peace, working together to build a healthier and more just world.

**Amen.**
